

IMPORTANT DATES AND DEADLINES

Workshop proposals opening: 15 December 2016
Workshop proposals deadline: 15 March 2017
Online-registration opening: 01 April 2017
Abstract submission opening: 02 May 2017
Abstract submission deadline: 01 July 2017
Early-bird registration deadline: 31 July 2017
Notification to abstract submitters: 25 August 2017
Early-bird registration deadline for abstract presenters: 13 Sept 2017

SYMPOSIUM COMMITTEES

Presidency

Ulrich Jaehde (DE)
Hanna Seidling (DE)

Organising Committee

Hanna Seidling (DE), Chair
Ulrich Jaehde (DE), Chair
Erik Gerbrands (NL)
Anette Lampert (DE)
Markus Lampert (CH)
Edwin van Aalten (NL)

Scientific Committee

Hanna Seidling, (DE), Chair
Ulrich Jaehde (DE), Chair
Thilo Bertsche (DE)
Siska Desplenter (BE)
Tobias Dreischulte (UK)
Yolande Hanssen (QA)
Torsten Hoppe-Tichy (DE)
Hannelore Kreckel (DE)
Martin Schulz (DE)

JOIN ESCP

The aim of the European Society of Clinical Pharmacy is to develop and promote the rational and appropriate use of medicines by the individual and by society. For further information about the Society or its products portfolio visit the website: www.escpweb.org or contact:

ESCP International Office
Theda Mansholtstraat 5B
NL-2331JE Leiden
Phone: +31 715 766 157, Fax: +31 715 722 431

European Society of Clinical Pharmacy

Science meets practice – towards evidence-based clinical pharmacy services
46th ESCP Symposium on Clinical Pharmacy • Heidelberg, Germany • 9–11 October 2017

Dear Colleagues

On behalf of the European Society of Clinical Pharmacy, we invite you to participate in the 46th ESCP Symposium on Clinical Pharmacy in Heidelberg, Germany on October 9th-11th, 2017. After 18 years, Germany is proud of receiving ESCP in Heidelberg for a conference.

The theme of the symposium is "Science meets practice - towards evidence-based clinical pharmacy services." The programme aims at attracting both scientists and practitioners sharing the mission to develop clinical pharmacy and its role in health care.

During the conference we will discuss and develop ideas and concepts how we can integrate evidence in our clinical pharmacy services, how we can generate evidence for clinical pharmacy services and how education and training can promote quality in clinical pharmacy practice.

On the first day, we will ask how intuition and evidence shape our clinical pharmacy services and critically discuss how we can foster evidence-based clinical pharmacy services. Obviously we do not only need efficient tools but also practical approaches to apply them in daily practice.

On the second day, we will learn how we can generate evidence for our services and which study types are needed to measure their efficacy and effectiveness. We will hear from stakeholders what evidence they expect in order to support the implementation of clinical pharmacy services and in workshops we will learn from examples how routine care services can be scientifically evaluated.

On the last day, we will merge the previous results and learn which models exist to train both future and current pharmacists in both providing evidence-based clinical pharmacy services and assessing their benefits.

Altogether, the conference will provide many opportunities for scientists and practitioners to meet and to learn from each other. And who knows - maybe Heidelberg will be the origin of new networks between "both species" in clinical pharmacy.

We would be glad to meet you in Heidelberg. Let's bring experience and evidence together for the benefit of our patients.

Ulrich Jaehde

Hanna Seidling

Markus Lampert, President ESCP

SCIENTIFIC PROGRAMME

The scientific programme includes keynote lectures, invited lectures, mini-symposia, workshops, oral free communications, poster discussion fora, and poster presentations. The official Symposium language is English. No simultaneous translation will be available.

Main Topics:

- **How to utilize evidence in clinical pharmacy services**
 - Are standardized guidelines and personalized treatment a contradiction?
 - What are current evidence-based tools in clinical pharmacy practice and how can we apply them in our daily routine?
 - How can medication reviews be implemented in different settings?
- **How to generate evidence for clinical pharmacy services**
 - What evidence currently supports clinical pharmacy services?
 - What is the added value of clinical pharmacy services and which study designs are appropriate to measure it?
 - How do we address the challenge of implementation and complex interventions?
 - What evidence is needed to support dissemination of clinical pharmacy services?
- **Assuring quality in clinical pharmacy services**
 - How should we teach patient-oriented pharmacy to assure quality?
 - How can simulation training be efficiently integrated into continuous learning and enhance learning outcomes?
 - Which indicators are available to continuously and meaningfully assess the quality of clinical pharmacy services?

Workshops will be announced in the Preliminary Programme and via the ESCP website.

Contemporary sculpture (1979) by Gernot Rumpf in reminiscence of the Heidelberg Monkey (17th century).

ABSTRACT SUBMISSION

Submission of abstracts for oral communications and posters will be on-line through the ESCP website: www.escpweb.org.

Accepted and presented abstracts will be published in the International Journal of Clinical Pharmacy (IJCP, former PWS)

Abstract submission start: May 2nd, 2017

Abstract submission deadline: July 1st, 2017
